The Kansas City Stock Yards

Are the most complete and commodious in the west and second largest in the world. Higher prices are realized here than farther east. This is due to the fact that stock marketed here is in better condition and has less shrinkage, having been shipped a shorter distance; and also to there being located at these yards eight packing houses, with an aggregate daily capacity of 9,000 cattle, 40,000 hogs and 4,000 sheep. There are in regular attendance sharp, competitive buyers for the packing houses of Chicago, Omaha, St. Louis, Indianapolis, Cincinnati, New York and Boston and the Export trade to Europe. All the eighteen railroads running into Kansas City have direct connection with the yards.
